

Monad in Haskell and Calculator with Exceptions

Luca Roversi

December 11, 2025

Learning outcomes

- Monad in Haskell
- Calculator with Exceptions

- `Support.CT0530MonadInHaskell.hs`

Calculator with Exceptions

- Let the monad `ErrMsg` be available:
`Arithmetic.Interpreters.Monad.QuoRem.MonadErrMsg.hs`
- A new pattern to rise errors and propagate them:
`Arithmetic.Interpreters.Monad.QuoRem.Eval.hs`
